ABOUT BRAND

Located in Lagos, Nigeria, TULAMOTO is an innovative electric vehicle (EV) company which opened in Nigeria in 2024. Specializing in electric bikes, tricycles, and small lorries powered by both lithium battery technology and acid battery solutions, we offer reliable, high-performance vehicles tailored to meet Nigeria's growing demand for sustainable transportation.

Guided by our core principles—high technology standards, superior quality, and robust power—we are committed to driving market penetration starting in Lagos, forging a path to become a trusted brand name in Nigeria and beyond. With a strong commitment to green energy, emissions reduction, and environmental stewardship, TULA Moto is proud to contribute to a more sustainable society.

OUR CEO

SAID

“We're not just selling electric vehicles, we're offering peace of mind. Reliability, affordability, and ease. That's what we stand for. If it's not good enough for us, it's not good enough for you.”

NIU MORSE

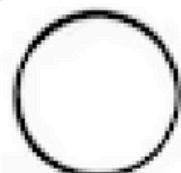

CEO TULA MOTO

BRAND

VISION

Inspired by the enduring strength and refuge of the Tula Oasis in the heart of the Sahara, TULA Moto aspires to be a lasting companion on the journey of progress. A trusted partner for those building their dreams on the road. We are committed to delivering cutting-edge technology, reliable performance, and exceptional quality, empowering our users with vehicles that work as hard as they do. As the world evolves, we stand firm in our commitment to green innovation, energy efficiency, and environmentally conscious solutions – because we believe the road to the future should be clean, powerful, and shared. TULA Moto is not just a brand – it's a movement toward sustainable growth, long-term partnership, and purpose-driven progress.

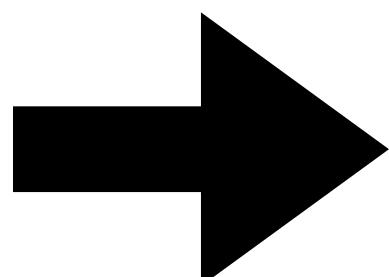

BRAND MISSION

TULA MOTO is here to power your everyday work with clean, reliable electric vehicles. Built for strength, comfort, and lasting performance, our goal is to support your journey while promoting a greener, more efficient way to move.

**WHAT WE
OFFER.**

THE SPARKLE

A compact and efficient solution for light-duty transport, this small-sized electric tricycle is perfect for navigating busy city streets and handling everyday delivery needs. Its bright blue finish makes it easy to spot, while the durable build ensures it can take on your daily haul with ease. Specifications:

- Motor: 500W (rear wheel drive)
- Controller: 12-tube intelligent
- controller Brake: Rear 130-drum
- brake Tires: Front 3.0-12 / Rear 3.0-
- 12 Battery: 60V 20AH lead-acid
- battery Estimated Range (per full charge): 50–70 km Dimensions
- (L×W×H): 2485 × 875 × 1140 mm
- Weight: 116 kg

Built for convenience, stability, and smart energy use – ideal for riders who need a reliable partner for everyday business runs.

THE HADES

A strong and steady performer, this electric tricycle balances power and practicality – perfect for small businesses with big delivery needs. With a 1500W motor and 1000kg load capacity, it handles tough tasks while offering smooth, reliable rides through city streets or rugged roads. Specifications:

- Motor: 1500W (60H high-efficiency motor) .
- Controller: 24-tube intelligent controller .
- Rear Axle: Integral 160 with variable gear for improved handling and torque.
- Transmission Tires: Front 3.75-12 / Rear 4.00-12.
- Brakes: Front hub 110 / Rear hub 160 .
- Shock Absorbers: 43mm hydraulic with external spring for added stability.
- Load Capacity: Up to 1000 kg Battery: 72V 58AH lead-acid battery .

Durable, dependable, and 100% electric – this tricycle is ready to move your business forward, no matter the load.

THE BULL-CRUISER

This powerful, full-sized electric tricycle is designed for serious load-bearing tasks. With a reinforced frame, stronger motor, and advanced shock absorption, it's your ideal partner for long, demanding delivery routes and heavier cargo. Rugged, reliable, and 100% electric – it's built to handle the tough stuff. Specifications:

- Motor: 2000W (80H permanent magnet synchronous motor).
- Controller: 24-tube intelligent controller.
- Rear Axle: Integral 180 with gear change for enhanced torque and control .
- Tires: Front 5.00-12 / Rear 5.00-12 Brakes: Front hub 110 / Rear hub 160 for improved stopping power Spare Tire Included (5.00-12)
- Shock Absorbers: 43mm hydraulic with external spring, built for rougher roads .
- Load Capacity: Up to 1000 kg .
- Battery: 72V 58AH lead-acid battery.

Built to go the distance and carry the weight – this is your go-to electric trike when the job demands more. Ideal for wholesale deliveries, construction sites, or high-volume routes.

THE SCORPION KING

Built for big tasks and tougher roads, this heavy-duty electric tricycle combines a powerful 1800W motor with strong suspension and enhanced load capacity — ideal for businesses that need a reliable and energy-efficient workhorse. Its larger wheels and integral gear system offer better traction and control, even under full load. Specifications:

- Motor: 1800W (70H high-performance motor)
- Controller: 24-tube intelligent controller
- Rear Axle: Integral 180 gear change for increased torque and smoother rides
- Tires: Front 5.00-12 / Rear 5.00-12
- Brakes: Front hub 110 / Rear hub 160
- Spare Tire: 5.00-12 included
- Shock Absorbers: 43mm hydraulic with external spring system for improved stability
- Load Capacity: Up to 1000 kg
- Battery: 72V 58AH lead-acid battery

Engineered for strength, balance, and all-day delivery — this tricycle is your electric solution for serious cargo work.

THE CRUSHER

This mid-sized electric tricycle is designed for business owners who need strength, balance, and efficient energy use on busy Nigerian roads. Powered by a robust 1500W permanent magnet synchronous motor and supported by durable suspension, it's built to handle daily tasks with ease and confidence. Specifications:

- Motor: 1500W (60H) Permanent Magnet Synchronous
- Motor Controller: 24-tube intelligent controller
- Tires: Front 5.00-12 / Rear 5.00-12 + Spare (5.00-12)
- Brakes: Front hub 110 / Rear hub 160
- Shock Absorber: 43mm hydraulic with external spring
- Battery: 72V 45AH lead-acid battery

Built for reliability and strong performance, this tricycle brings the power you need to keep your goods – and your business – moving forward.

THE RANCHER.

A dependable and practical choice for medium-load deliveries, this electric tricycle is designed to balance performance with efficiency. With a sturdy frame, reliable motor, and spacious build, it's a great option for everyday logistics and business transport. Specifications:

- Motor: 1200W (50Hz, rear-wheel drive)
- Controller: 18-tube intelligent controller
- Rear Axle: 130mm brake hub split with gear change
- Tires: Front 4.50-12 / Rear 4.50-12
- Brakes: Front hub 110 / Rear hub 160
- Battery: 72V 45AH lead-acid battery
- Dimensions (L×W×H): 3100 × 1170 × 1400 mm
- Weight: 280 kg

With solid tires, reinforced structure, and smooth handling, it's ideal for navigating urban routes while handling heavier cargo with ease.

THE ENFORCER.

Inspired by the familiar Nigerian Keke Napep, this electric cargo tricycle brings a modern, eco-friendly twist to a well-loved local design. Built to carry heavier loads while navigating busy roads and tight spaces, it offers a quiet, powerful, and reliable alternative for everyday business needs – without the fuel cost. Specifications:

- Motor: 1800W (70H, rear-wheel drive) Controller:
- 24-tube intelligent controller
- Rear Axle: Integral 160 full suspension rear axle
- Shock Absorbers: 43mm with external spring shock absorbers
- Brakes: Front hub 110 / Rear hub 160
- Tires: Front 4.00-12 / Rear 4.00-12
- Battery: 72V 58AH lead-acid battery Dimensions
- (L×W×H): 2830 × 1000 × 1820 mm Weight: 240 kg

Simple to maintain, familiar in structure, but fully electric – this is the new-age keke for businesses ready to move smart.

TULA KEKE NAPEP

Inspired by the familiar Nigerian Keke Napep, this electric tricycle brings a modern, eco-friendly twist to a well-loved local design. Built to carry more passengers while navigating busy roads and tight spaces, it offers a quiet, powerful, and reliable alternative for everyday business needs – without the fuel cost. Specifications:

- Motor: 3000W
- Controller: 30tube
- Rear axle: 180 full suspension six-tooth box rear axle
- Number of homo sapiens carried: 7 homo sapiens
- Tires: Front 4.00-12/ Rear 4.00-12
- Dimensions: 3000*1250*1710(mm)
- Weight: 260kg
- Battery: 72 V 120AH lithium battery

Simple to maintain, familiar in structure, but fully electric – this is the new-age keke for businesses ready to move smart.

- Battery: 72V 58AH lead-acid battery
- Estimated Range (per full charge): ≥150 km

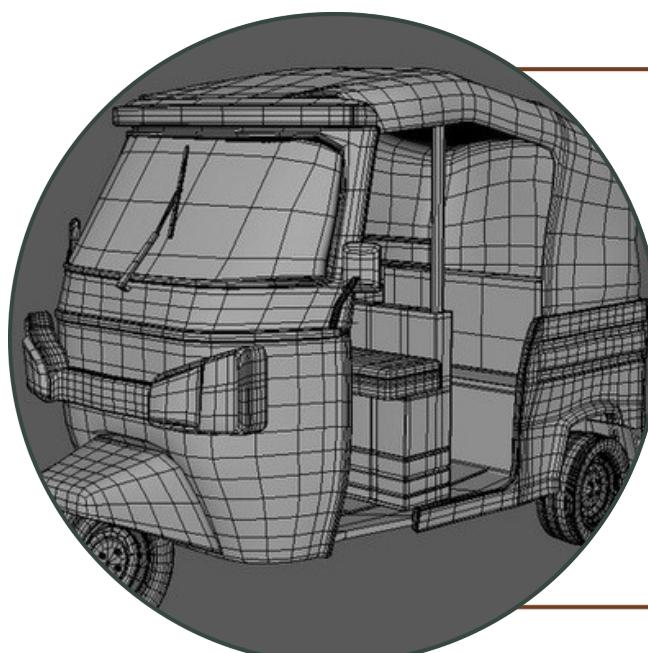

Built for businesses that demand more – more power, more space, more resilience.

REVIEW BOARD

Since I switched to TULA Moto, I've saved more on fuel and maintenance than I imagined. Plus, my customers love the clean look!

MUSA

Passengers always ask about my TULA keke. It's quieter, neater, and stands out. I earn more now because people prefer riding in it.

CHINEDU

No more queueing for fuel. I plug in at night and I'm good to go all day. Simple!
